STATE OF IMPLEMENTING THE UKRAINE-EU ASSOCIATION AGREEMENT: TOURISM SPHERE IN 2015 – EARLY 2017

The process of harmonization of the Ukrainian legislation in tourism sphere with directives and other acts of the EU is extremely slow and without the involvement of civil society sector. In Ukraine, the Coordination Council on implementation of the Agreement, which included a working group on tourism, is launched. The working group includes representatives of various ministries. Two years have passed since signing the Agreement. That's enough time to make these disappointing conclusions. And even the liquidation of the State Agency of Ukraine of Tourism and Resorts, which dragged on for two years, cannot be a reason for slowing the implementation of European legislation in Ukraine.

It is extremely important to facilitate the implementation of the Agreement because different EU institutions are a potential source of investment needed for the tourism infrastructure development. While in practice, the most intensive cooperation takes place within the technical assistance and grant support. Most commitments for the implementation of the tourism part of the Agreement are scheduled for the end of 2017. With the creation of the specialized department within the Ministry of Economic Development and Trade of Ukraine, the harmonization of the Ukrainian legislation in tourism sphere has accelerated efficiently.
